

## OPERATIONS TECHNICIAN

### Introduction

We are currently adding a seasoned Operations Technician to our team of highly trained professionals. The technician will be part of a dynamic group that supports our client's technology while providing superior customer service.

Computer Solutions offers an array of information technology products and services primarily to the South Texas region. Over the years, we have forged strong strategic alliances with leading IT service providers including Cisco, Microsoft, HP Inc, HP Enterprise, VMware, Rubrik, HPE Nimble, F5, Microsoft Azure, Microsoft O365 to name a few. In addition to hardware and software product sales, we support our clients' IT service needs with professional and consulting services such as Managed Services, Unified Communications, Network Infrastructure, and Server and Desktop Virtualization. Our record of success is clear—our client base has grown to approximately 300 companies across San Antonio and South Texas leading to tremendous annual revenue growth from \$1 million in 1984 to \$94 million in 2025. Our valued workforce of over 80 highly trained and certified staff creates the culture of success within Computer Solutions, having been rated the *number one Best Company to Work for in San Antonio* in 2024 by the San Antonio Business Journal.

### Position Summary

The Operations Technician will be a key element within the Computer Solutions Managed Services support team and is expected to provide a high level of technical and customer service to our customers over the phone and at the client site. The technician applies creative problem-solving techniques to identify the source of problems; as well as keeping the customer aware of every step along the way via our ticketing system, phone calls and one-on-one interactions. An Operations Technician is expected to use initiative and advise our customer on best practices for their environment.
